Highlights 2019

14 to 17 May 2019: 270 companies from 20 countries presented technological innovations in the field of ferrous and non-ferrous metals as well as current equipment and products for foundry machines, welding, cutting and joining and metallurgical processing.

Over four days, visitors could see a collective exposition of Russian foundries, national stands from Germany and China and manufacturers of modern industrial equipment, suppliers of latest technologies and engineering solutions.

As the special business zone, METAL PLAZA hosted a number of round table discussions and meetings, focusing on the developments in foundry technologies as well as on hot topics like additive manufacturing and industry 4.0.

Exhibitor Profile

Thermo Process Technology
Foundry Machinery
Ferrous and Non-Ferrous Castings manufactured by the following production process
3 D Fab +Print
Metallurgical Plants and Rolling Mills
Welding, Cutting, Joining Technology
Information Processing (Data Processing, Computing Programs and Systems)
Used Machinery and Equipment
Trading in Raw Materials, Semi-Finished Products, Semi-Manufactured Goods and Finished Products
Environmental Control and Waste Removal
Industrial Safety and Ergonomics
Research, Planning, Services, Consulting, Engineering
Trade Associations, Trade Publishers, Trade Literature
Training and Further Education
Steel Mills
Non-Ferrous metal works
Technical publications, technical periodicals, associations

Visitor Profile

Iron, steel and annealing foundries
Non-ferrous metal foundries
Mechanical engineering, apparatus construction, general, toolmaking
Foundry and mechanical engineering
Automobile manufacturing, transmission manufacturing and supply industry
Plant manufacturing/ engineering
Services/consulting
Wholesale and export trade
Non-ferrous metals industry
Steel and Metal Trade
